Stow Road Concept Development Committee

The Stow Road Development Committee thanks everyone for their helpful comments and suggestions. A consensus has been reached, and the committee and Selectmen have endorsed a plan to develop a community to provide accessible housing for seniors and affordable housing for first-time homebuyers. Work on a development RFP is underway. Look for future announcements on opportunities for further public input in the coming months. The committee and Selectmen thank everyone who has contributed to the process and look forward to continuing community engagement.
