Panel Presentation, Analysis, and Discussion

The Department of Education requires towns to engage in local Needs Assessments to assist in identifying targets for health education curriculum and discussion. In collaboration with Emerson Hospital, the Acton and Acton-Boxborough Schools and 9 surrounding school districts administered the survey in March 2012 to 10,580 students in grades 6, 8, and 9 through 12. The YRBS collected information regarding students' alcohol and drug use, sexual activity, emotional and personal safety, stress levels and other at-risk behaviors.
