Fire Protection/Suppression Systems

Mandated Document Submittals for Building Permit Application

780 CMR - Eighth Edition

This information is critical in processing the Building Permit Application. If your plans for a Fire suppression system are not 100% complete, Then you are required to submit a completed “Tier One Narrative” with your application

This process includes three tiers of the minimum document submittal requirements as stated in Chapter 9, section 901.2.1. This process does not preclude the permit applicant from submitting additional documents; for example shop drawings along with the *construction documents* at time of permit application. **Shop drawings shall note the name(s), license number(s), and license expiration date(s) of the contractor(s) installing the Fire Protection Systems.**

1. TIER ONE, CONSTRUCTION DOCUMENTS - Prior to issuance of a building permit, *construction documents* for the fire protection system must be submitted in accordance with Chapter 1: *Scope and Administration* and a building permit obtained prior to the installation of fire protection systems or modifications, alterations, additions or deletions to an existing fire protection system. The *construction documents* shall contain sufficient information to completely describe each of the fire protection system(s) for which a permit is to be issued.

The *construction documents* shall include the items listed under 2009 IBC Chapter 9, Mass Amendments Section 901.2.1.

2. Tier Two, Shop Drawings - Prior to installation of fire protection systems, shop drawings, where applicable, shall be submitted to the *building official* and fire official and shall contain, but not be limited to; detailed design layout, equipment specifications, system sequence of operation, and analysis to substantiate the design. Shop drawings shall note the name(s), license number(s) and license expiration date(s) of the contractor(s) installing the fire protection systems. **Exception.** For shop drawings of Fire Alarm and Detection Systems *see* section 907.1.2 above for applicable requirements.

3. Tier Three, Record Drawings - As built plans shall be provided to the building owner for all fire protection and life safety systems that are sealed as reviewed and approved by the *registered design professional* of legally recognized professional performing Construction Control. Where changes to original shop drawings are minor, a list of as-built changes shall be permitted to be submitted where sealed and reviewed and approved by the *registered design professional* or **legally recognized professional performing Construction Control.**
