Discussions:

Granite Hill - The Planning Board is still working with the applicant on this project. The Board has not received revised plans or word from DEP on the project. If the project remains unchanged it will require a public water supply approval from DEP and if the project is revised a review by the Board's Agent will be required. The Board has determined its conditional approval of the project, as noted in the letter of 1/30/19, is no longer appropriate based on the email from the DEP (8/5/19) regarding the need for a PWS approval for the project. The Board voted to withdraw the approval and send a letter to the applicant.
