# BOXBOROUGH COMMUNITY TV

Sharing rural community and heritage, engaged for insight

978-540-2489

# BOXBOROUGH COMMUNITY TELEVISION

Located at the Boxborough historic town hall in the Grange Meeting Room, BXB-TV is ideally located to serve the residents in providing LIVE broadcasts of Board of Selectmen's and town meetings.

### PRODUCTION GEAR UPGRADE:

BXB-TV has finished a complete renovation of the production equipment used to broadcast our government access channels.

### STUDIO IN A BOX:

BXB-TV has been using their state of the art technology to provide Intro/Outro and lower third title graphics to Board of Selectmen and town meetings.

The three HD robotic cameras and remote camera controller feed a Lightstream video switcher to control camera

mix and insert custom graphics, lower thirds, and video clips into the broadcast streams sent to Comcast and Verizon.

### NEW ENG CAMERA GEAR:

BXBTV has acquired two Entertainment and News Gathering (ENG) kits that consist of Canon XA35 video cameras, Manfrotto tripods, and Sony wireless audio kits. This equipment was purchased to support government initiatives to improve resident participation in Town government.

### Incorporating BXB-TV into the Grange Room Infrastructure:

As the infrastructure renovation of the Grange Meeting Room progresses, the audio and video components will become less noticeable and more an integrated component of the historical renovation of the meeting space.

Non-televised meetings in the Grange Meeting Room will have easy access to and use of wireless mics, ceiling speakers, and a ceiling mounted projector and video screen.

### VOLUNTEER & CONTRACTOR OPPORTUNITIES:

Boxborough residents are encouraged to join the BXB-TV production crew covering BOS and town meetings. Training is provided. For eligible high school students, they can get practical hands-on experience using their Media, Audio-Visual and Performing arts training.
