

Questions re 72 Stow Road

I live directly opposite 72 Stow Road, at 95 Stow Road.

- What are you going to be building at 72 Stow Road: both police and fire facilities?
- Will this be the main entrance for the Boxborough police and fire vehicles, or are they also retaining the existing facilities on Rte 111?
- For emergencies, will the police and fire vehicles be exiting onto Stow Road with sirens blaring full force?
- Sirens, especially fire sirens, damage human hearing.
- You will be adding more traffic onto Stow Road, along with all the additional traffic and deliveries created by the Enclave residents. Will a traffic light be installed at the intersection of Stow Road and Rte 111 to make entering/exiting Rte 111 easier?
- The value of my property at 95 Stow Road will be adversely affected. **Who wants to buy a house that is directly opposite a fire and police station, where emergency vehicles will be exiting at all hours of the day and night with sirens blaring?** There should be an abatement on property taxes.

Please respond to my questions and concerns at my email address. A more complete description of what is being built would be helpful.

Thank you for your help.
