

## **Revised fire station space needs summary**

- Net reduction of about 862 SF (18,362 -> ~ 17,500)
  - Eliminated one apparatus bay
  - Increased office and shared space
  - Added plan review room

## **Apparatus/vehicle planning assumptions**

- Possible ladder truck
- Possible second ambulance (spare)
- Second tanker (replaces large diameter hose wagon)
- Can garage Chief's vehicle in inclement weather
- Option for external covered storage of equipment trailers (solar potential)

(Note: Additional apparatus will not increase building occupancy)
